

PRODUCT CHANGE NOTIFICATION UPDATE

ISSUE DATE: July 31, 2017
NOTIFICATION: SYNPCN-2016-11-18, Rev B
TITLE: SNAP production release notification
EFFECTIVE DATE: July 31 2017
DEVICE(S): **SNAP RF Modules**

DESCRIPTION:

In order to provide innovative solutions that meet the challenges of connecting the physical world to the digital world with SNAP: *the* Things Platform, Synapse will update production firmware on SNAP modules periodically. Synapse makes software releases available for download and evaluation from our developer site at developer.synapse-wireless.com at least six months prior to updating the production version of firmware shipped on our hardware products.

REASON:

SNAPcore version 2.8 was released October 6th, 2016. After depleting existing inventory of 2.5 and 2.7, new builds manufactured after June 1, 2017 will have the latest SNAPcore firmware loaded on the module.

AFFECTED PRODUCTS:

Part Number	Current SNAPcore	SNAPcore Update	Effective Date
RF200P81	2.5	2.8	After deplete and June 1, 2017
RF200PU1	2.5	2.8	After deplete and June 1, 2017
RF220UF1	2.5	2.8	After deplete and June 1, 2017
RF220SU	2.7	2.8	After deplete and June 1, 2017
RF220SU-EU	2.7	2.8	After deplete and June 1, 2017
SM200P81	2.5	2.8	After deplete and June 1, 2017
SM200PU1	2.5	2.8	After deplete and June 1, 2017
SM220UF1	2.5	2.8	After deplete and June 1, 2017
