

SC020-030 End of Life Notification

Issue Date: January 1, 2021

Effective Date: January 1, 2021

Devices

Part Number	Description
SC020-030	E20: SNAP Connect Gateway - CE, Ethernet, Wi-Fi, SNAP Mesh 2.4Ghz, 11-26VDC

Description of Changes

The SC020-030 CE E20 WIFI Gateway has been moved to End of Life and will no longer be offered for sale.

Reason for Change

The standard SC020-010 E20 WIFI Gateway supports a CE compliant SNAP Mesh Tx Power configuration bit that allows it to be configured for CE compliant applications so there is no longer a need to carry a separate SKU.

Recommended Alternative Product(s)

Customers can order the standard high volume SC020-010 E20 WIFI Gateway and set the CE compliant SNAP Mesh Tx Power configuration bit in their application making the E20 WIFI Gateway compliant with CE Tx Power levels. The hardware is identical between the SC020-010 and SC020-030 and CE test reports are available for the E20 hardware.
